## Our most successful experiences:

- 1 His Majesty of the Langhe: Barolo on a Vespa**, that is, a whole day spent riding Vespa Elettrica among the most beautiful vineyards of the Barolo Langa.
- 2 Weekend in the Langhe on a Vespa**, that is, two days during which we organize everything, tour, overnight stay, lunch or dinner and tasting in a local winery.
- 3 Tour in the Langa in the Ape Calessino**: entire day spent on the legendary Ape Calessino to visit the most iconic places in the Barolo Langa.

## Description of our activity:

We organize experiences "riding a Vespa" in the Langhe, Roero and Monferrato with the aim of involving customers in specific activities that can raise awareness of this area, its excellence, the most important places and the people who live and work there. Tours like "His Majesty of the Langhe: Barolo on a Vespa", that is, a whole day spent riding among the most beautiful vineyards of the Barolo Langa. Or "Weekend in the Langhe on a Vespa", that is, two days during which we organize everything, tour, overnight stay, lunch or dinner and tasting in a local winery.

We also organize Incentive events for companies: tailor-made events for companies including blind tasting and treasure hunt on a Vespa.

Starting from 2023 we have enriched our offer with a new totally green and sustainable product line. That is, tours with Vespa Elettrica in the Langhe, Roero and Monferrato area. Experiences that offer users the opportunity to visit companies and facilities that already practice organic farming in the area and are committed to safeguarding the environment in which they operate.
